

CREATING IBM CLOUD SERVICE

Date	30 OCTOBER 2022
Team ID	PNT2022TMID51059
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's account 'Gomathi Naayagam's A...'. A 'Create resource' button is prominently displayed in blue. The main content area is titled 'Dashboard' and features a 'For you' section with six recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Use Cloud Foundry' (Deploy and run your applications without managing servers or clusters with IBM Cloud Foundry), 'Explore IBM Cloud Shell' (Try a command-driven approach for creating, developing, and deploying a web project), 'View available starter kits' (Accelerate your cloud use with starter kits. View the most popular starter kits based on use case or language), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), and 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources). Each action includes a 'Recommended' or 'Getting started' label and a time estimate (10 min, 2 min, or 5 min). Below the 'For you' section, there are four more sections: 'News' (with a 'View all' link), 'Recent support cases' (with a 'View all' link), 'Planned maintenance' (with a 'View all' link), and 'IBM Cloud status' (with a 'View all' link). The 'News' section lists several articles, including 'IBM Adds Lifecycle Services to Enterprise Networking and Deepens Strategic Partnership with Cisco', 'All About IBM Storage's Price and Supply Guarantee', and 'IBM Tech Now: November 7, 2022'. The 'IBM Cloud status' section shows a world map with a blue chat bubble icon in the bottom right corner.

An IBM Cloud Service created Successfully by our team.
