SPRINT 4 : Creating a successful Mobile Application to link with Node-Red Devices and the Program .
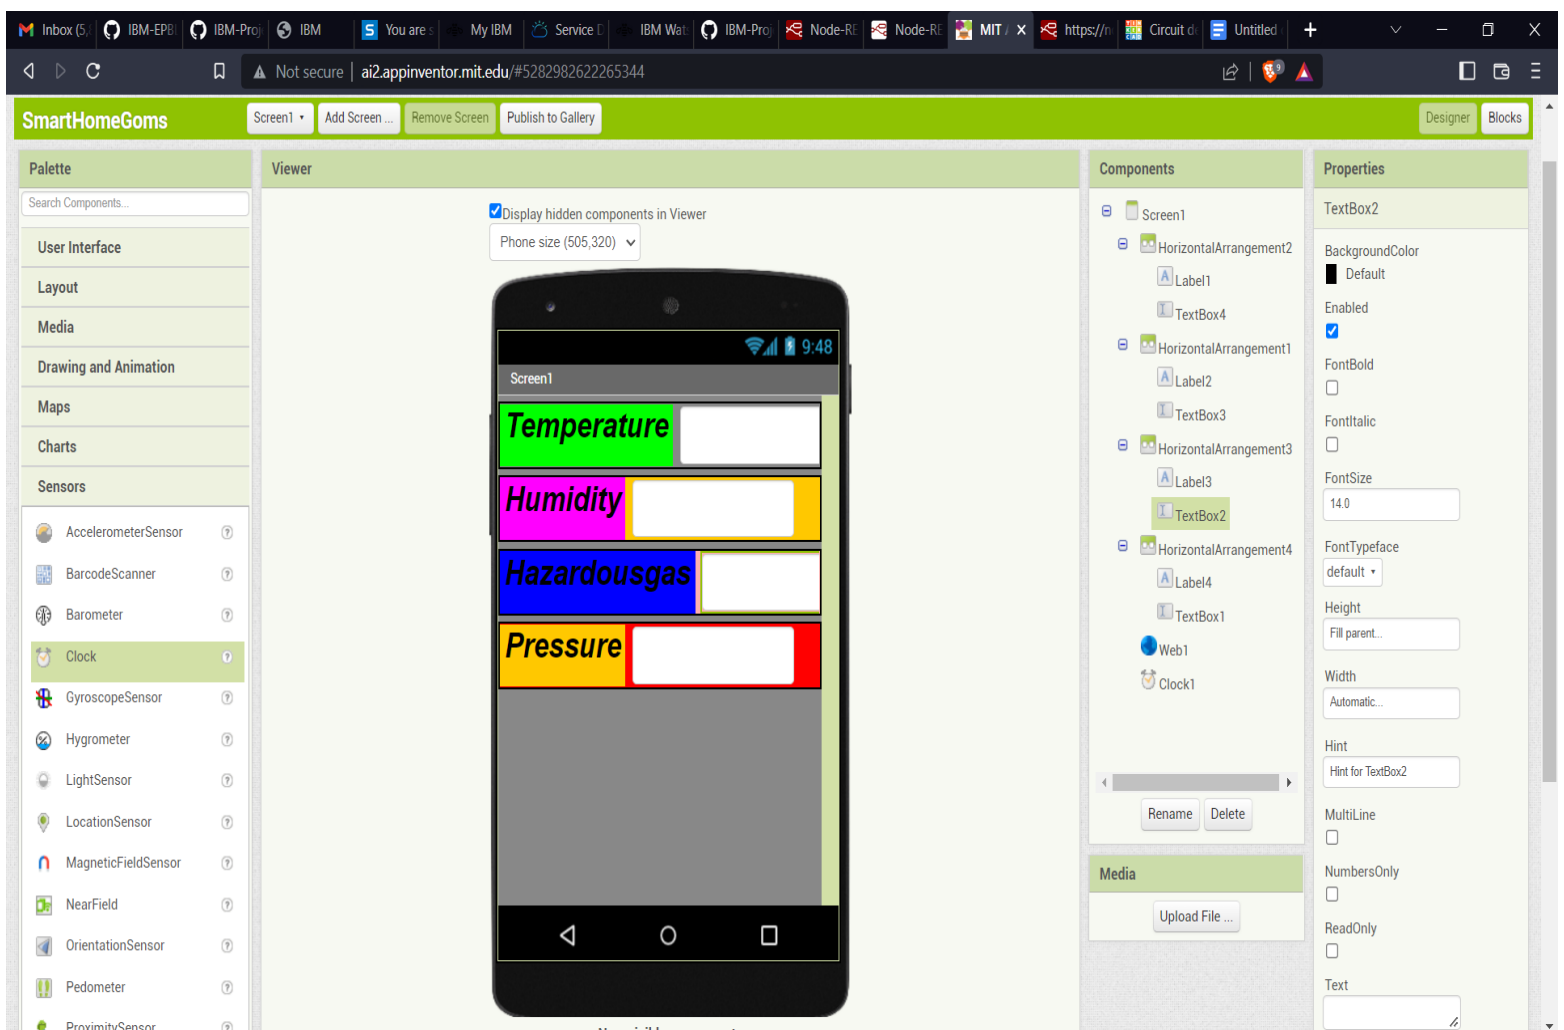

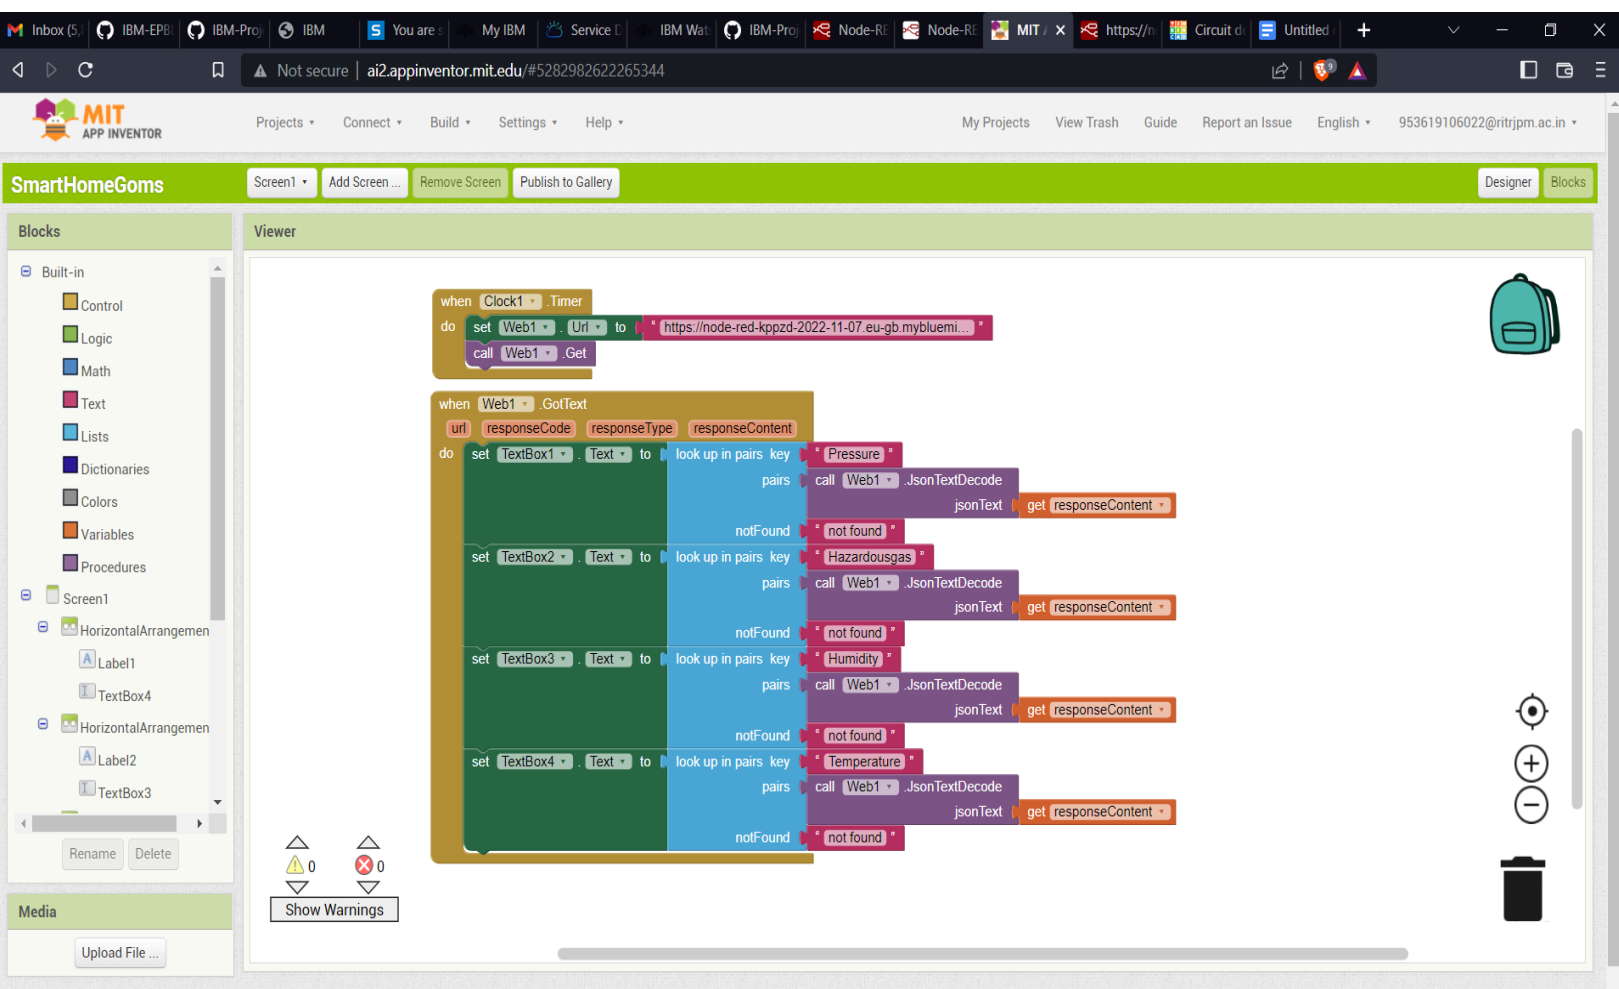

Team ID	PNT2022TMID51059
Project Title	**Gas Leakage Monitoring & Alerting System For Industries**
Date	07 Nov,2022

We have Created a Mobile app to display the values generated by the IoT device so that it is easily accessible

The Mobile app screenshot is given below and thus the final sprint has been completed successfully.

Temperature 66

Humidity 99

Hazardousgas 90

Pressure 76
